## Designed in collaboration with Maintenance Operations & MRO providers

**FOR-FindingMRO** helps you resolve fast developing situations by giving you instant access to every **MRO & Service Provider**. Think of it as a combination of a very smart search engine and **yellow pages**.

Save valuable time – find a suitable service provider in an urgent situation.

Choose the best cost option for maintenance, parts, ground handling, turn-around times, logistics and much more.

Be ahead of the rest – instant access to service provider capability & availability for your fleet.

# The best tool to minimise delays & disruptions, avoid AOG and find the right MRO provider

- Confidently choose the most suitable MRO or Service Provider to get the job done when you have an urgent need.
- Access contact information fast. It only takes a few mouse-clicks to start resolving your problem.
- Have control of all MROs and network capability. Monitor and grade their performance so you can make better decisions in the future.

At **FORLOOP** we want to digitally transform commercial aviation with intelligent solutions that maximise benefits for passengers and airlines.

**FOR-FindingMRO** offers an intelligent MRO & Supplier search engine. Airlines and MROs are easily integrated so that together they can work better in times of urgent need. And we are doing this **FREE OF CHARGE** to help stimulate air travel so we can confidently fly again!

Contact us on [info@findingmro.com](mailto:info@findingmro.com) to be one of the first to have access to our new groundbreaking tool.

Now, more than ever, we need to co-operate, partner and remain committed to create positive changes and re-invigorate our industry.

**That's Smarter  
Aviation.**
